

**Dear colleagues, friends, readers!**

An international scientific and practical conference **The Musin Readings. 2021. Relevant Energy Law Tasks** took place on April 9, 2021, within the framework of the Moscow Legal Forum. Russian and foreign scientists, practitioners, specialists from energy companies, government agencies, representatives of public organizations, postgraduate and degree-seeking students attended the conference. The event was organized by the Kutafin Moscow State Law University (MSAL), the Association of Lawyers of Russia, Autonomous Non-Commercial Organization V.A. Musin Research Center for the Development of Energy Law and Modern Legal Science, Gazprom VNII GAZ, LLC, Jurist Publishing Group.

The first part of papers of the participants was presented in the second issue of the Energy Law Forum journal. This issue also presents scientific articles of the conference participants. All the papers are dedicated to the most pressing problems and tasks of the legal regulation in the electric power industry and are a valuable contribution to the development of energy law.

I would like once again to express my deep gratitude to all the event participants for the prepared speeches and significant recommendations for the further development of the legal regulation in the energy industry, fruitful cooperation, and wish everyone health and further creative success.

We are looking forward to seeing everyone at The Musin Readings 2022!

Editor-in-Chief

**V. Romanova**
